

Legislative, Normative & Informative Document List

The Gas Safe Register Legislation & Standards Document List

Date issued: 1 October 2017

Introduction

This document defines all documents recognised by Gas Safe Register as being Legislative, Normative (gas standards) and Informative reference documents. Some documents are only available as hard copy documents, but the majority are available for electronic download, either via the Gas Safe Register's engineer's website, or from the web site of the organisation or body promoting the document. In some cases the document is only available for purchase from the organisation or a recognised supplier. Where this is the case the availability is identified alongside the reference to the document.

Hierarchy of Legislation and Standards

In this document list, the hierarchy of documents within the following tables is defined in order of significance.

Detailed first are those Statutory Acts, or Regulations that are legally enforceable. These are followed by a recognised list of documents known as 'Second Tier' documents. This series of documents provide practical guidance on ways to comply with the functional requirements of Regulations. This guidance is not law, but provides information which if followed correctly will ensure legal obligations have been met. Where someone chooses to depart from this guidance they will need to ensure that the method chosen provides equivalent or better standards of safety to the relevant published guidance. The guidance provided within appropriate second tier documents will be used to assess compliance.

The next tier of documents are those gas industry standards which are aimed specifically at the installation, commissioning or maintenance of gas equipment (pipework, appliances etc.). These are known as 'Normative Documents'. These documents are referred to as 'Gas Industry Standards'. These documents in conjunction with any available manufacturer's instructions will be used by Gas Safe Register to assess compliance.

Finally, the remaining listings within the tables provide details of links to other available information, which are considered to provide invaluable and useful information to help enable Registered Businesses to comply with their obligations and assist them in carrying out their day to day activities. These are referred to as 'Informative Documents'.

Legislative, Normative & Informative Document List

The Gas Safe Register Legislation & Standards Document List

Date issued: 1 October 2017

Layout of Tables

This document list comprises a series of tables in 4 sections as follows:

Section 1 - Legislation	Page 5
Section 2 – Documents Supporting Legislation	Page 9
Section 3 – Gas Industry Standards	Page 15
Section 4 – Other Informative Documents and Useful References	Page 20

Inspections Undertaken by Gas Safe Register

When Gas Safe Register inspects work undertaken by registered gas businesses in Great Britain, Northern Ireland and the Isle of Man and Guernsey, in the first instance, it will assess against manufacturer's installation instructions and where these are not available or relevant, against the criteria as specified within legislative documents and relevant gas industry standards. However, it is recognised that due to the differences of individual legislation used in different geographical areas, there will be some differences in application. Whilst conducting inspections, due regard will be taken of the requirements of all appropriate guidance.

The hierarchy of documents are defined as follows:

Legislation -

In this section the listed documents are those brought to the Statute Book by Act of Parliament and are referenced as Statutory Instruments (SI) or equivalent, these are the law in the respective countries as stated and as such must be followed. The SI Reference number (or equivalent) is preceded by the year of it being added to the Statute Book i.e. the Gas Safety (Installation and Use) Regulations 1998 has an SI Number of 1998:2451. Regulations are in general written in a format which provides high level requirements.

Documents Supporting

Legislation

This section includes details of a number of Second Tier documents i.e. Approved Documents to the Building Regulations. These documents provide practical guidance on ways to comply with the functional requirements of the Regulations.

For the Building Regulations these are outlined in a series of 'Approved Documents' (AD) published by the appropriate Government Department responsible for the Regulations. The AD's that currently apply to gas work are;

- A Structure
- B Fire safety
- F Ventilation
- G3 Hot water storage
- J Heat producing appliances
- L Conservation of fuel and power
- M Access to and use of buildings
- P Electrical safety in dwellings.

Each document contains general guidance on the performance expected of materials and building work in order to comply with each of the requirements of the Building Regulations; and practical examples and solutions on how to achieve compliance for some of the more common building situations.

Gas Industry Standards – In this section are included all of the Gas Industry Standards that are published by the three current Standard Setting Bodies which are:

- British and European Standards (BSI)
- Institution of Gas Engineers and Managers (IGEM)
- UKLPG

In addition, there is also one industry standard published by National Caravan Council (NCC).

Informative References – This section contains links to important documents that provide invaluable and useful information to help enable Registered Businesses to comply with their obligations and assist them in carrying out their day to day activities.

Key to Symbols Used	Symbol Code
New Normative Standard	+
New Informative Document / Reference	☀
Standard will be withdrawn (date entered)	*
Revision or Amendment to existing document	◊
Document available for Public Comment ‡	◼

‡ When published, if it is known that the 3 month validity period coincides with a period of time in which a Standard being revised is out for ‘Public Comment’, the final date for comment will be included in the ‘comments’ field alongside the details of that standard. Comments on draft standards can be submitted on-line using the following links:

British and European Standards (BSI) <http://drafts.bsigroup.com/> (Registration required)

Institution of Gas Engineers and Managers (IGEM) <https://www.igem.org.uk/technical-standards/standards-development/drafts-for-comment.aspx>

This Gas Safe Document will be updated and republished on, or about the following dates each year:

- 1 January
- 1 April
- 1 July
- 1 October

If issues are identified with the contents of this document, or you are aware of reference documents that may be generally useful to the gas industry and it is believed they should be added to future editions of the document, please email your ideas and suggestions to:

technical@gassaferegister.co.uk

Links to On-Line documents

When viewing this document via a computer connected to the internet, the links used to depict the name of the document are active, so that clicking on the link (using the method prescribed by the computer operating system) will open the selected document on that computer. The individual document then be read or saved to the computer for later use. However, it should be remembered that all such saved documents will be considered as uncontrolled versions and checks should always be made to ensure the current version is being referenced.

Section 3 - Gas Industry Standards

British & European Standards <i>(The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red - see Note 11)</i>		
Number	Title	Changes / Comments
BS 4163: 2007	Health and safety for design and technology in schools and similar establishments – Code of practice	
BS 5440-1: 2008	Flueing & ventilation for gas appliances of rated input not exceeding 70kW net (1st, 2nd & 3rd family gases) Specification for installation of gas appliances to chimneys & for maintenance of chimneys	
BS 5440-2: 2009	Installation & maintenance of flues & ventilation for gas appliances of rated input not exceeding 70kW net (1st, 2nd & 3rd family gases). Specification for installation & maintenance of ventilation provision for gas appliances	
BS 5546: 2010	Specification for installation & maintenance of gas-fired water-heating appliances of rated input not exceeding 70 kW net	
BS 5482-1: 2005	Code of practice for domestic butane & propane-gas-burning- Domestic butane & propane-gas-burning installations. Installations at permanent dwellings, residential park homes & commercial premises, with installation pipework sizes not exceeding DN 25 for steel & DN 28 for corrugated stainless steel or copper	Under review
BS 5482-2: 1977	Installation in caravans & non-permanent dwellings (Amd May 2001)	
PD 54823: 2016	Code of practice for domestic butane & propane gas-burning installations. Installations in boats, yachts & other vessels	
BS 3632: 2005	Residential park homes. Specification	
BS 5864: 2010	Installation & maintenance of gas-fired ducted air heaters of rated input not exceeding 70kW net (2nd & 3rd family gases). Specification	
BS 5871-1: 2005	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel effect gas appliances – Gas fires, convector heaters, fire/back boilers & heating stoves (1st, 2nd & 3rd family gases)	
BS 5871-2: 2005	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel effect gas appliances – Inset live fuel effect gas fires of heat input not exceeding 15kW & fire/back boilers (2nd & 3rd family gases)	
BS 5871-3: 2005	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel effect gas appliances – Decorative fuel effect gas appliances of heat input not exceeding 20kW (net) (2nd & 3rd family gases)	
BS 5871-4: 2007	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel effect gas appliances – Independent gas-fired flueless fires, convector heaters & heating stoves of nominal heat input not exceeding 6kW (net) (2nd & 3rd family gases)	
BS 6172: 2010 + A1 2017	Specification for installation, servicing and maintenance of domestic gas cooking appliances (2nd & 3rd family gases)	◊
BS 6173: 2009	Specification for installation of gas-fired catering appliances for use in all types of catering establishments (2nd & 3rd family gases)	
BS 6230: 2011	Specification for installation & maintenance of gas-fired forced convection air heaters for commercial & industrial space heating (2nd & 3rd family gases)	

Section 3 – Gas Industry Standards

Institution of Gas Engineers and Managers Documents (IGEM) Continued *(The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red- see Note 11)*

Number	Title	Changes / Comments
BS 6400-1: 2016	Specification for installation, exchange, relocation, maintenance and removal of gas meters with a maximum capacity not exceeding 6m ³ /h – Part 1 - Low pressure (2nd family gases)	
BS 6400-2: 2006	Specification for installation, exchange, relocation & removal of gas meters with a maximum capacity not exceeding 6m ³ /h (2nd & 3rd family gases) – Medium pressure (2nd family gases)	Under review
BS 6400-3: 2007	Specification for installation, exchange, relocation & removal of gas meters with a maximum capacity not exceeding 6m ³ /h – Low & medium pressure (3rd family gases)	Due for review
BS 6644: 2011	Specification for Installation of gas-fired hot water boilers of rated inputs between 70kW (net) & 1.8MW (net) (2nd & 3rd family gases) - Incorporating Corrigendum No. 1	
BS 6798: 2014	Specification for selection, installation, inspection, commissioning, servicing and maintenance of gas-fired boilers of rated input not exceeding 70kW net	
BS 6891: 2015	Specification for the installation and maintenance of low pressure gas installation pipework of up to 35mm (R 1 ¼) on premises	
BS 6896: 2011	Specification for installation & maintenance of gas-fired overhead radiant heaters for industrial & commercial heating (2nd & 3rd family gases)	
BS 7624: 2004	Specification for installation & maintenance of domestic direct gas-fired tumble dryers of up to 6kW heat input (2nd & 3rd family gases)	
BS 7671: 2008 + A3: 2015	Requirements for electrical installations. - Institution of Engineering and Technology (IET) Wiring Regulations (formally IEE Wiring Regulations) - Seventeenth edition	Revision expected
BS 7967: 2014	Guide for the use of electronic portable combustion gas analysers for the measurement of carbon monoxide in dwellings and the combustion performance of domestic gas-fired appliances	
BS 7967-5: 2010	Carbon monoxide in dwellings & other premises & the combustion performance of gas-fired appliances – Guide for using electronic portable combustion gas analysers in non-domestic premises for the measurement of carbon monoxide & carbon dioxide levels & the determination of combustion performance	
BS 8313: 1997	Code of practice for accommodation of building services in ducts	
BS 8446: 2005	Specification for the installation & maintenance of open-flued, non-domestic gas-fired laundry appliances	Under review
BS 8660-1: 2011	Gas-fired micro-cogeneration appliances of rated thermal input not exceeding 70 kW net Part 1: Specification for selection, installation, inspection, commissioning, servicing and maintenance of Stirling engine micro-cogeneration appliances	
BS EN 721: 2004	Leisure accommodation vehicles – Safety ventilation requirements	
BS EN 751-1:1997	Sealing materials for metallic threaded joints in contact with 1st, 2nd & 3rd family gases & hot water. Anaerobic jointing compounds	
BS EN 751-2:1997	Sealing materials for metallic threaded joints in contact with 1st, 2nd & 3rd family gases & hot water. Non-hardening jointing compounds	
BS EN 751-3:1997	Sealing materials for metallic threaded joints in contact with 1st, 2nd & 3rd family gases & hot water. Unsintered PTFE tapes	

Section 3 – Gas Industry Standards

Institution of Gas Engineers and Managers Documents (IGEM) Continued (The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red- see Note 11)

Number	Title	Changes / Comments
BS EN 1775: 2007	Gas supply pipework for buildings – Maximum operating pressure loss \leq 5 bar – Functional requirements	
BS EN 12327: 2012	Gas infrastructure - Pressure testing, commissioning and decommissioning procedures - Functional requirements	
BS EN 50292: 2002	Electrical apparatus for the detection of carbon monoxide in domestic premises - Guide on the selection, installation, use & maintenance	
BS EN 15001-1: 2009	Gas installation pipework with an operating pressure greater than 0.5bar for industrial installations & greater than 5bar for industrial & non industrial installations - Detailed functional requirements for design, materials, construction, inspection & testing	
BS EN 15001-2: 2008	Gas installation pipework with an operating pressure greater than 0.5bar for industrial installations & greater than 5 bar for industrial & non industrial installations - Detailed functional requirements for commissioning, operation & maintenance	
BS EN 1949: 2011 +A1 2013	Specification for the installation of LPG systems for habitation purposes in leisure accommodation vehicles & accommodation purposes in other vehicles	
BS EN ISO 10239: 2014	Small craft - Liquefied petroleum gas (LPG) systems	
BS EN 13410: 2001	Gas-fired overhead radiant heaters - Ventilation requirements for non-domestic premises. (Amd Jan 03)	
PD CEN/TR 1749: 2014	European scheme for the classification of gas appliances according to the method of evacuation of the products of combustion	

Institution of Gas Engineers and Managers Documents (IGEM) (The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red- see Note 11)

IGE/UP/1- Edition 2	Strength & tightness testing & purging of industrial & commercial gas installations (inc. Amd published March 05)	Under review
IGE/UP/1A - Edition 2	Strength testing, tightness testing & direct purging of small low pressure industrial & commercial Natural gas installations (inc. amendments published March 2005)	Under review
IGEM/UP/1B - Edition 3	Tightness testing and direct purging of small Liquefied Petroleum Gas/Air, Natural Gas and Liquefied Petroleum Gas installations – (with Amendments October 2012)	
IGEM/UP/1C	Strength testing, tightness testing & direct purging of natural gas and LPG meter installations	
IGEM/UP/2 - Edition 3	Installation pipework on industrial and commercial premises (Communication. 1771)	
IGEM/UP/3 - Edition 3	Gas fuelled spark ignition and dual-fuel engines (Communication 1781)	
IGEM/UP/4 - Edition 4	Commissioning of gas fired plant on industrial & commercial premises (Communication 1801)	
IGEM/UP/6 – Edition 2	Application of compressors to Natural Gas fuel systems	
IGE/UP/7 - Edition 2	<i>Gas installations in timber framed & light steel framed buildings (inc. amendments published October 2008)</i> Note 8: IGE/UP/7 - Edition 2 is available as a free download from IGEM & can be viewed online at the following link: http://www.igem.org.uk/media/80398/UP-7-Edition-2%20Comm-1722.pdf	Due for review
IGE/UP/9 - Edition 2	Application of Natural Gas and fuel oil systems to Gas turbines and supplementary and auxiliary fired burners	Due for review
IGEM/UP/10 - Edition 4 with amendments – March 2016	Installation of flued gas appliances in industrial and commercial premises (Communication1774)	

Section 3 – Gas Industry Standards

Institution of Gas Engineers and Managers Documents (IGEM) Continued		(The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red- see Note 11)
Number	Title	Changes / Comments
IGEM/UP/11 – Edition 2	Gas installations in educational establishments	Revision expected
IGEM/UP/12 – Edition 2	Application of burners and controls to gas fired process plant (Communication 1778)	
IGEM/UP/16	Design for Natural Gas installations on industrial and commercial premises with respect to hazardous area classification and preparation of risk assessments (with amendments August 2013)	Under review
IGEM/UP/17	Shared chimney and flue systems for domestic gas appliances	Due for review
IGEM/UP/18	Gas installations for vehicle repair and bodyshops (Replaced British Gas Technical Publication IM/28: 1993)	
IGEM/UP/19	Design and application of interlock devices and associated systems used with gas appliance installations in commercial catering establishments	
IGEM/GL/8 - Edition 3	Reporting and investigation of gas related incidents (Communication 1776)	
IGE/GL/9	Guidance for large gas consumers in dealing with Natural Gas supply emergencies (Communication 1724) available as a free download from IGEM via the following link: http://igem.org.uk/media/80389/IGE-GL-9.pdf	Due for review
IGE/TD/4 - Edition 4	Gas Services	
IGEM/G/1 – Edition 2	Defining the end of the Network, a meter installation and installation pipework	
IGEM/G/4 Edition 2	Definitions in the Gas Industry (Communication 1763)	
IGEM/G/5 Edition 2	Gas in multi-occupancy buildings	
IGEM/G/6	Gas supplies to mobile dwellings	Under review
IGEM/G/7	Risk Assessment Techniques	
IGEM/G/10	Non-return valves	
IGE/GM/4 - Edition 2	Flow metering practice for pressures between 38 & 100bar	
IGE/GM/5 - Edition 3	Selection, installation & use of electronic gas meter volume conversion systems	
IGEM/GM/6 - Edition 2	Non-domestic meter installations – Standard designs	
IGEM/GM/7A	Electrical connections for gas metering equipment	Revision expected
IGEM/GM/7B	Hazardous area classification for gas metering equipment	Revision expected
IGE/GM/8 - Part 1	Non-domestic meter installations. Flow rate exceeding 6 m ³ h ⁻¹ & inlet pressure not exceeding 38 bar Design	
IGEM/GM/8 - Pt 2 Edition 2	Non-domestic meter installations. Location, housings and compounds	
IGEM/GM/8 - Pt 3 Edition 2	Non-domestic meter installations. Installation and commissioning	
IGEM/GM/8 - Part 4 Edition 2	Non-domestic meter installations. Operation and maintenance	
IGEM/GM/8 - Part 5 Edition 2	Non-domestic meter installations. Notices and labels	
IGEM/IG/1	Standards of Training in Gas Work. Note 9: IGEM/IG/1 is available as a free download from IGEM and can be viewed online at the following link: https://www.igem.org.uk/media/321486/standards%20of%20training%20in%20gas%20work%20-%20igem-ig-1%20communication%201767.pdf	
IGEM/IG/1 Supplement 1	Standards of Training in Gas Work, Non-domestic training specification Note 10: IGEM/IG/1 is available as a free download from IGEM and can be viewed online at the following link:	

Section 3 – Gas Industry Standards

Institution of Gas Engineers and Managers Documents (IGEM) Continued *(The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red - see Note 11)*

All Gas Safe Register Safety Alerts	All published Gas Safe Register Safety Alerts. These can be viewed at: https://www.gassaferegister.co.uk/sign-in/ - login & visit the Technical Information area.	
All Gas Safe Register Industry Standard Updates	All published Gas Safe Register Industry Standard Updates. These can be viewed at: https://www.gassaferegister.co.uk/sign-in/ - login & visit the Technical Information area.	

Note 13: The Heating and Hotwater Industry Council (HHIC) together with its members have created/developed a central point of access to enable Gas Safe Registered businesses/engineers to have up-to-date access to manufacturer's instructions/information for a wide range of heating appliances notably boilers and warm air heating appliances. This has been done in support of Gas Safe Register TB 126. For further information go to: <http://www.centralheating.co.uk/Boiler-Manuals>

Note 14: Access to Industry Standards from Gas Safe Register

The Industry Standard numbers highlighted in **red** are those included in the list of current Industry Standards available on a subscription basis to the majority of Gas Safe registered business. To subscribe, registered businesses should log into their online account (<https://www.gassaferegister.co.uk/sign-in/>) using their user 'id' and password and then click on 'Standards Subscriptions'; After choosing the subscription type required, (either one year or three years) and once the subscription is paid for, the business and it's engineers will be able to access the normative documents via Gas Safe Register website.
