

## New website and member area

Energy & Utility Skills has recently launched its new website, which has been optimised for viewing on smart phones and tablets so you can access it on the move.

The site is a rich source of information and can be accessed [here](#).

You will need your login details (username: eusmember and password: MemberZone7891) to view our exclusive online [member area](#). You will find a comprehensive hub containing member-only content including sector insights, policy analysis and a library of member communications.

Member-only resources are accessible throughout the site when you're logged in, ensuring you can access key documents quickly and easily.

Login details for the member area are changed periodically and these will be forwarded to you through our communication channels.

If you have any feedback or queries, please contact [Victoria Elkington](#).
