

SHEA (WASTE & RESOURCE MANAGEMENT)

A course that covers the essentials of **safety, health and environmental awareness**; designed for those working across the waste management sector.

Benefits to your business

- ▶ Improved awareness of health, safety and environmental requirements
- ▶ A more competent and confident workforce
- ▶ Delivered by trainers with waste management experience
- ▶ Contextualised content makes it 100% relevant
- ▶ Interactive course that caters for different learning styles

Developed with waste industry health and safety professionals

This course has been developed in collaboration with FCC Environment and Viridor.

Energy & Utility Skills Register (EUSR) Registration

Successful completion of the course results in EUSR registration for SHEA (Waste & Resource Management), valid for three years.

Access to CSCS controlled sites

EUSR registration allows access to CSCS controlled sites for utilities work.

Who the course is for

Designed for all individuals requiring access to operational sites, including supervisors and managers. An additional module has been developed for drivers and operatives.

Duration of training

One day programme.
